

MAXITILE 260 SLIDING TILES AW

SPECIFICATION SHEET

General Description

A versatile machine with high productivity and accuracy. Rail mounted sliding cutting head enables easy cutting of larger tiles. The rail tilts allow bevel cutting of any angle & the head moves to enable plunge cutting.

Features & Benefits

- Large cutting table allows tile cutting up to 600mm in length.
- Superb accuracy allows for very easy sawing of all tiles and complex cuts.
- Electric water pump offers superior control and flow of water for dust suppression and blade cooling.
- Quick & easy to set up and use. Complete with sturdy folding legs.
- Easy to clean with removable cutting table.
- Robust design for trouble free operation.
