**EC DECLARATION OF CONFORMITY / DECLARATION CE DE CONFORMITE /
DECLARACIÓN DE CONFORMIDAD CE / DECLARAÇÃO CE DE CONFORMIDADE /
EG-VERKLARING VAN OVEREENSTEMMING / EF
OVERENSSTEMMELSESERKLÆRING**

(GB) We, Belle Group Sheen UK, Sheen, Nr. Buxton, Derbyshire, SK17 0EU, GB, hereby certify that if the product described within this certificate is bought from an authorised Belle Group dealer within the EEC, it conforms to the following EEC directives: 98/37/EC (This directive is a consolidation of the original machinery directive 89/392/EEC), Electromagnetic Compatibility Directive 89/336/EEC (as amended by 92/31/EEC & 93/68/EEC). The low voltage directive 73/23/EEC, BS EN ISO 12100-1:2003 Safety of machinery and associated harmonised standards, where applicable. Noise emissions conform to directive 2000/14/EC Annex VI, for machines under article 12 the notified body is AV Technology Limited, AVTECH house, Birdhall Lane, Cheadle Heath, Stockport, Cheshire, SK3 0XU, GB.
Noise Technical Files are held at the Belle Group Head Office address which is stated above.

(F) Nous soussignés, Belle Group Sheen UK, Sheen, Nr Buxton, Derbyshire, SK17 0EU, GB, certifions que si le produit décrit dans ce certificat est acheté chez un distributeur autorisé Belle Group au sein de la CEE, il est conforme aux normes CEE ci-après: 98/37/CE (Cette norme est une codification des normes de la machine d'origine 89/392/CEE), Norme compatible pour électromagnétisme 89/336/CEE (modifié par 92/31/CEE et 93/68/CEE). Caractéristiques basse tension 73/23/CEE, BS EN ISO 12100-1:2003, Norme de sécurité des machines et des critères associés et configurés, si applicable. Les émissions de bruit sont conformes à la directive 2000/14/EC Annexe VI pour machines, article 12, l'objet mentionné est AV Technology Limited, AVTECH House, Birdhall Lane, Cheadle Heath, Stockport, Cheshire, SK3 0XU, GB.
Les dossiers techniques sur les émissions sonores des machines sont détenus au siège social de BELLE GROUP à l'adresse ci-dessus.

(E) La Sociedad, Belle Group Sheen UK, Sheen, Nr. Buxton, Derbyshire, SK 17 0EU, GB, por el presente documento certifica que si el producto descrito en este certificado es comprado a un distribuidor autorizado de Belle Group en la CEE, este es conforme a las siguientes directivas: 98/37/CE de la CEE (Esta directiva consolida la directiva inicial sobre maquinaria 89/392/CEE), Directiva 89/336 CEE sobre Compatibilidad Electromagnética (según enmiendas 92/31/CEE y 93/68 CEE), Directiva sobre Bajo Voltaje 73/23/CEE, BS EN ISO 12100-1:2003 de Seguridad de Maquinaria y Niveles armonizados estándares asociados donde sean aplicables. Emisión de Ruidos conforme a la Directiva 2000/14/CE Anexo VI para máquinas bajo artículo 12 la mencionada unidad está AV Technology Limited, AVTECH House, Birdhall Lane, Cheadle Heath, Stockport, Cheshire, SK3 0XU, GB.
En La Sede Central de Belle Group existen Archivos Técnicos con contenido referente a Niveles de Ruido.

(P) O signatário, Belle Group Sheen UK, Sheen, Nr Buxton, Derbyshire, SK 0EU, GB, pelo presente, declara que se o produto descrito neste certificado foi adquirido a um distribuidor autorizado do Belle Group em qualquer país da UE, está em conformidade com o estabelecido nas seguintes diretivas comunitárias: 98/37/EC (esta directiva é uma consolidação da directiva de maquinaria 89/392/EEC), Directiva de Compatibilidade Electromagnética 89/336/EEC (conforme corrigido pelas 92/31/EEC & 93/68 EEC). A directiva de baixa voltagem 73/23/EEC, BS EN ISO 12100-1:2003 Segurança da maquinaria e às normas harmonizadas afins se aplicáveis. As emissões de ruído respeitam e estão dentro das directivas para máquinas 2000/14/EC Anexo VI, artigo 12, sendo o organismo notificado AV Technology Limited, AVTECH house, Birdhall Lane, Cheadle Heath, Stockport, Cheshire, SK3 0XU, GB.
A informação técnica sobre níveis sonoros está disponível na Sede da Belle Group na morada acima mencionada.

(NL) Ondergetekende, Belle Group Sheen UK, Sheen, Nr. Buxton, Derbyshire, SK17 0EU, GB, verklaaren hierbij dat als het product zoals beschreven in dit certificaat is gekocht van een erkende Belle Group dealer binnen de EEG, het voldoet aan de volgende EEG richtlijnen: 98/37/EC (Deze richtlijn is een opvolger van de originele Machineryrichtlijn 89/392/EEG), Electromagnetische Compatibiliteit Richtlijn 89/336/EEG (geamendeerd door 92/31/EEG & 93/68 EEC). De Laagspannings Richtlijn 72/23/EEG, BS EN ISO 12100-1:2003 Veiligheid van Machines en hieraan gekoppelde geharmoniseerde Standaarden, waar deze van toepassing is. Rumoer emissies passen voor richtlijn EC Zjgebouw VI, voor toestel onder stuk 12 naar de notified groep zit AV Technology Limited, AVTECH house, Birdhall Lane, Cheadle Heath, Stockport, Cheshire, SK3 0XU, GB
Worden de Technische Dossiers van het lawaai gehouden op het adres van het Hoofdkantoor van de Groep Belle dat hierboven wordt verklaard.

(DK) Vi, Belle Group Sheen UK, Sheen, Nr. Buxton, Derbyshire, SK17 0EU, GB, erklærer hermed, at hvis det i dette certifikat beskrevne produkt er købt hos en autoriseret Belle Group forhandler i EU, er det i overensstemmelse med følgende EØF-direktiver: 98/37/EF, 73/23/EØF (som ændret ved 93/68/EØF), 89/336/EØF (som ændret ved 92/31/EØF), 93/68/EØF og tilknyttede, harmoniserede standarder, hvor relevant. Støjniveauet er i overensstemmelse med direktiv 2000/14/EF, bilag VI gældende for maskiner under paragraf 12. Det bemyndigede organ er AV Technology Limited, AVTECH house, Birdhall Lane, Cheadle Heath, Stockport, Cheshire, SK3 0XU, Storbritannien.
De tekniske støjspecifikationer forefindes på Belle Group's hovedkontor, adressen er skrevet ovenfor.

Introduction

Congratulations on your purchase of this quality concrete mixer from the Belle Group Range.

This machine is manufactured to conform to the EEC directives currently in force, is issued with a Declaration of Conformity and therefore displays the CE mark, applicable in territories where they are enforced. Retain this manual with your machine for future reference.

SAFETY AND ACCIDENT PREVENTION

Operation Instructions

All persons who apply, assemble, operate, start, control, maintain or repair this machine, must read and understand the operating instructions.

Owner Responsibility:

The owner must ensure that only qualified persons operate, maintain or repair this machine.

STORAGE

When not in use, store in a dry, locked place. Keep away from children.

Operation for the Intended Purpose :

Mixers are intended for the production of concrete, mortar and plaster. The mixer must be used for its intended purposes and is not suitable for the mixing of flammable or explosive substances. The mixers must not be used in an explosive atmosphere.

MAINTENANCE AND REPAIRS

When maintaining this machine only the manufacturers original replacement parts may be used.

The user will lose any possible claims if replacement parts used are other than the makers original replacement parts.

Only authorised persons should repair the mixer, and within the requirements of the CE mark (where applicable), where no deviation to the original specification must take place.

CAUTION

Any maintenance and repairs carried out, to any of the electric components must be undertaken by a qualified electrician.

WARNING

WARNING

Before you operate or carry out any maintenance on this machine **YOU MUST READ** and **STUDY** this manual.

KNOW how to safely use the unit's controls and what you must do for safe maintenance.

(Be sure that you know how to switch the machine off before you switch on, in case you get into difficulty.)

ALWAYS wear or use the proper safety items required for your personal protection.

If you have **ANY QUESTIONS** about the safe use or maintenance of this unit, **ASK YOUR SUPERVISOR OR CONTACT THE BELLE GROUP +44 (0)1298 84606**

Safety Instructions

Before starting the mixer

- ⚠ Ensure engine oil is filled to correct level before operating mixer. **Note:** The engine must be lifted to the horizontal position when filling and checking oil.
- ⚠ Check that all guards are in position and correctly fitted.
- ⚠ **DO NOT** wear loose clothing or jewellery that may become entangled in the workings of this machine.
- ⚠ Suitable clothing as follows should meet relevant EEC/local safety standards: overalls, work boots, goggles, face mask, gloves and ear defenders etc.
- ⚠ **DO NOT** tip mixer onto the drum mouth when motor is running.
- ⚠ Ensure that any trailing cable is protected against damage and not liable to be tripped over or trapped underneath the mixer.
- ⚠ **We recommend the use of an Residual Current Device on 230v electrics.**
- ⚠ Remove all packaging material before operating.

When operating the mixer

- ⚠ Keep unauthorised persons away from mixing drum.
- ⚠ Keep area around the mixer clear of obstructions which could cause persons to fall onto moving parts.
- ⚠ Always ensure mixer is on level ground before mixing.
- ⚠ **DO** become familiar with the controls before operating this machine.
- ⚠ **DO** ensure that all guards are fitted in the correct position.
- ⚠ **DO** ensure plenty of ventilation when running diesel/petrol engines in a confined area.
- ⚠ **DO** replace any worn/damaged warning decals.
- ⚠ **DO** ensure the drum is rotating while emptying the mixer.
- ⚠ **DO** always switch off and remove the plug from the socket if leaving the machine unattended.
- ⚠ **DO NOT** use as a wheel barrow. Disconnect from power supply before moving.
- ⚠ **BEWARE** of the Danger Zones & Hot Zones.
- ⚠ **BE AWARE** of exhaust venting directions.

Emergency Stop

If you have to turn off the mixer in a emergency you must: Electric: either turn off at switch or at the mains, Petrol: turn the engine switch off, see engine manual.

Fire Fighting

If your mixer catches fire, turn off the electric supply. Using a dry powder or CO2 fire extinguisher put out the fire. If the fire can not be put out, keep away and call the fire brigade. If you are in any doubt about the safety condition of your machine, please contact your Belle authorized Service Dealer.

Warning - Important

Should the socket outlets in your home not be suitable for the plug supplied with your product, the plug must be removed (cut-off if it is a moulded plug and disposed of) and an appropriate plug fitted. Follow wiring instructions carefully. Do not connect either core to the earth pin, as this is a Class II Isolated Product.

BLUE = NEUTRAL & BROWN = LIVE

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured Blue must be connected to the terminal which is marked with the letter N or coloured Black. The wire which is coloured Brown must be connected to the terminal which is marked with the letter L or coloured Red.

Warning Decals

Emergency Stop Switch.

Emergency Stop Switch
Operating Instructions.

Assembly Instructions

Ensure drum fits right up to the shoulder on the shaft. Do not spin on fast as this may damage the gearbox

Tools Required:-
 13mm x1
 x1

Electric Only

Ensure all nuts and bolts are securely tight

PARALLEL

Please Note: Supplied with no oil in petrol engine use bottle provided for initial engine fill

Emergency Stop Button
(Electric Only)

Stand Assembly

DO NOT Tip mixer onto drum mouth when the motor is running

CAUTION whilst rotating the mixer up into the stand position, always lift from the front of the mixer.

NOTE: When ready for dismantling the mixer after use, follow all the previous procedures but in reverse order. Ensure Stand Clip is located correctly onto frame.

Loading and Unloading

CAUTION

Never remain under or in the immediate vicinity of the machine when it is lifted by a crane. Only use marked lifting points. Always make sure that all lifting devices are dimensioned for the weight of the products.

Service and Maintenance

Before starting any maintenance or repairs, switch off motor, and isolate from the main power supply.
On completion of maintenance, check that the mixer functions correctly and that all guards are correctly fitted.

ELECTRIC MIXER

All portable electric appliances are dangerous if abused. This machine will only operate on one voltage. Check the power supply to ensure it corresponds to the voltage as indicated on the rating label.

Make sure that the motor is switched off before you plug it into the power supply.

230v - Always use a Residual Current Device ("RCD"), (earth leakage trip), plugged directly into the 230v socket. If using an extension cable, plug it directly into the RCD.

110v - When using a portable transformer it must have a minimum output of 2.5kw and to continuous rated. Always use an RCD between the 230V supply and the portable transformer.

The symbols on the ON/OFF switch are 0 (Red) = OFF and I (Green) = ON in accordance with international standards.

WARNING

DO NOT use an extension cable between the transformer and the power supply. Always ensure that the cable between the 110v mixer and transformer is a minimum length of 3 metres. Ensure cable is fitted with cable clip to the mixer frame at all times.

EXTENSION CABLES

If you need to use an extension cable it must be no longer than 30 metres (100 feet) in length. The wire section must be 1.5mm² on 230v and 2.5mm² on 110v. Ensure that the extension cable is carefully laid out avoiding liquids, sharp edges and places where vehicles might run over it. Avoid allowing the extension cable to be trapped underneath the mixer. Unroll it fully or it will overheat and could catch fire. Make sure that any extension cable connections are dry and safe.

THERMAL PROTECTION DEVICE

The Electric motor is fitted with a Thermal Protection Device. Should circumstances arise where this activates, the motor will stop. Once the thermal trip resets itself the motor will be able to be restarted at the on/off switch. The thermal trip reset time could vary from 2 minutes to 10 minutes.

COMBUSTION ENGINES

Check oil regularly, level engine up when doing so. For Initial engine fill or top up use a suitable engine oil of a 10W/30 grade. In your own interests read the makers instruction leaflet issued with the machine before starting up.

If the safety facilities are damaged or don't function correctly the mixer must not be used. Be aware of exhaust venting directions, all exhausts vent to the left hand side of the machine when viewed from the rear of the machine. To maintain correct lubrication the mixer must always be opened on level ground. Always read the engine manufacturers manual before starting the engine. Ensure plenty of ventilation when running the gasoline engines in a confined area. Beware of hot parts.

NOTE:- ONLY HONDA GX120 VARIANTS HAVE A VARIABLE THROTTLE. SEE ENGINE MANUAL FOR MORE DETAILS.

CLEANING

Wipe off any external material. **DO NOT** use petrol, turpentine, lacquer or paint thinner, dry cleaning fluids or similar products. Never let any liquids near the engine/motor. Use 1" gravel and clean water to clean the inside of the drum. **DO NOT** use bricks etc. as this will damage the drum.

FRAME

The hole on the underside of the frame is to drain away any water.

BELT

WARNING

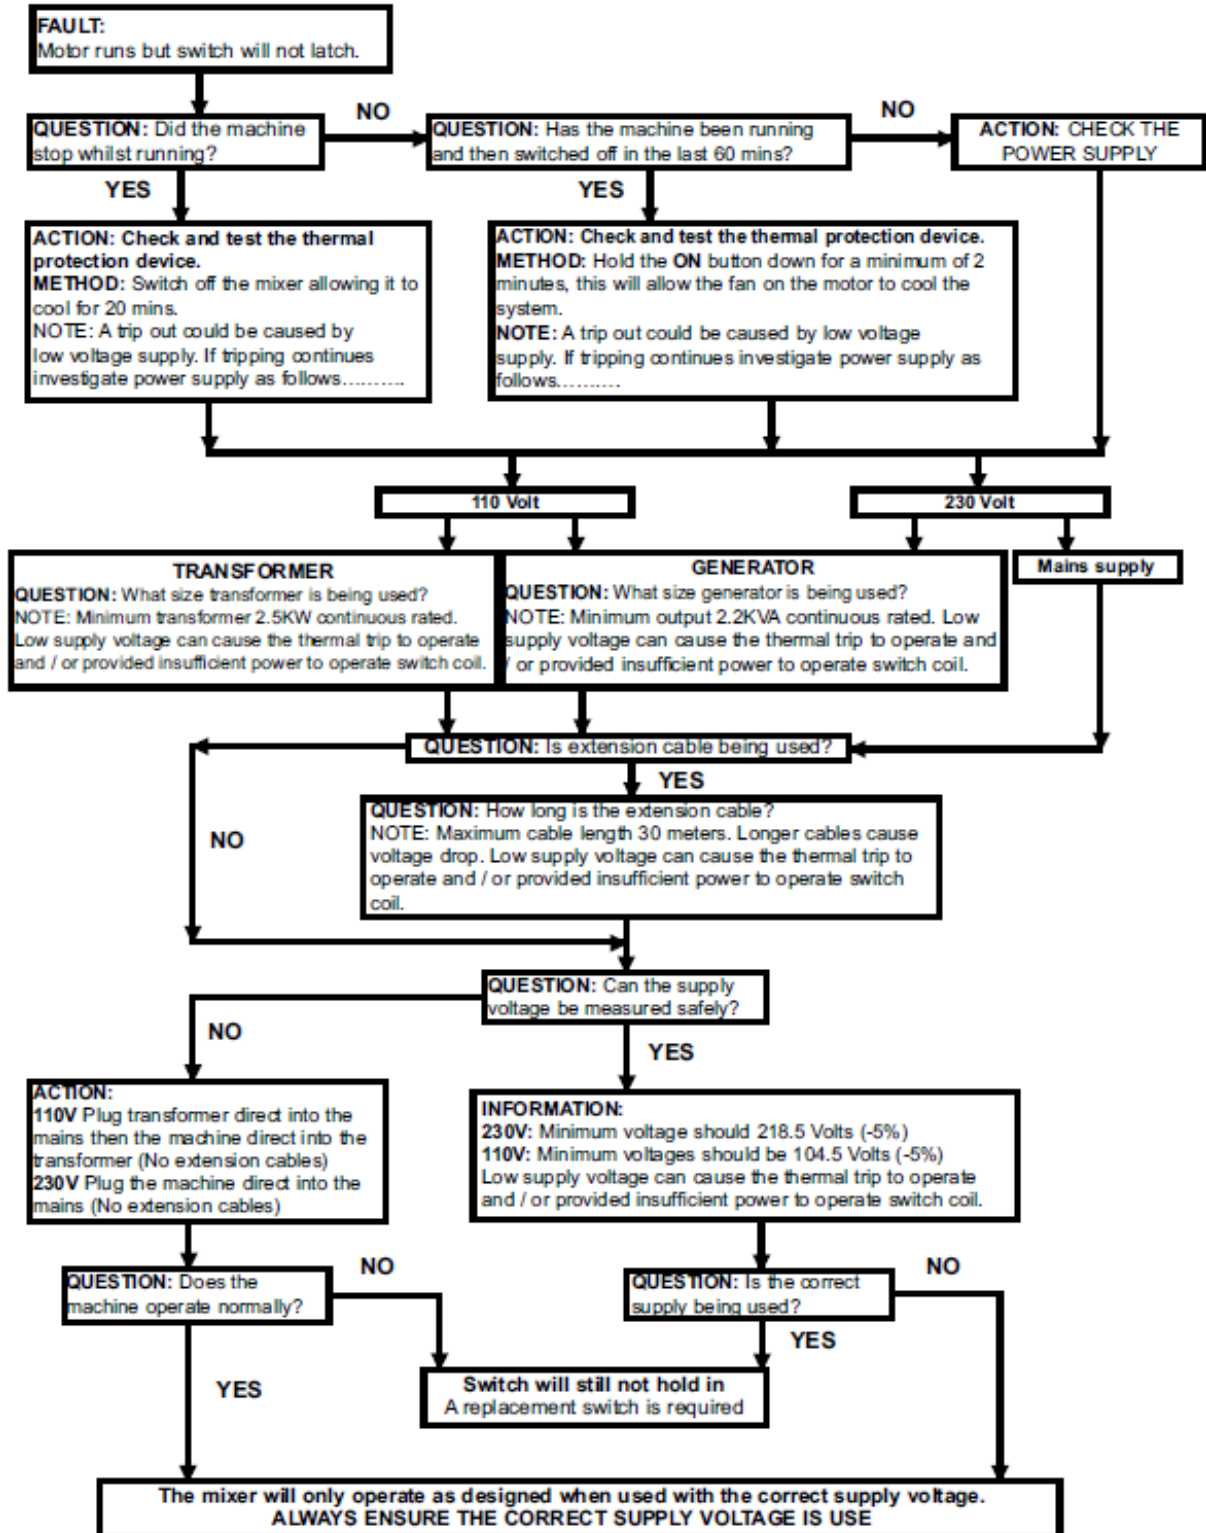

All Belle mixers Electric/Petrol are fitted with a preset tensioned toothed belt. No adjustment is necessary. **DO NOT** try to adjust with the motor running. Ensure the extension lead is always unplugged before the motor cover is removed.

GEARBOX

The factory has preset the gearbox oil level. Before inspecting the gearbox oil level, make sure the gearbox is cold before removing the filler plug. Top up with EP90 or similar gear oil in the mix position to the level of the filler plug.

Switch Check Flow-Chart

Mixing Hints

Mix Ratios

The correct mix ratio (cement:sand:stone) depends on the type of application; harder concrete requires more cement, rougher applications require more aggregate. The ratios given below are guidelines: best proportions may depend on the quality of sand/stone used.

First put in the water - around 7 litres (1½ gallons), using more or less depending on the type of mix required. Add some aggregate before adding cement, to avoid sticking. Work consistently to the ratio of ingredients for whatever type of concrete mix you are working to.

Getting A Good Mix

The approximate mixing time for concrete is 2-4 minutes from when all the material (including the water) has been added - over-mixing can reduce strength and cause segregation of the coarser aggregates.

Beware of low grade aggregates; these will only lead to trouble later on with sinking and frost spoiling the appearance of the pour. Also do not get the concrete mix too wet as this can reduce strength and make it less able to withstand weathering.

Looking After Your Mixer

Never throw material into the mixer - trickle it steadily over the rim or it will stick firmly to the back of the drum and can only be dislodged by stopping the mixer.

Keep your mixer clean - material left in the drum will harden, and attract more on each use until the mixer is useless.

Do not throw bricks into a mixer drum to clean it out. The best method is a mix of 1" (2½cm) gravel and clean water - use plenty of it, as this will do the job in half the time.

Warranty

Your new Belle Group Minimix 150 is warranted to the original purchaser for a period of one-year (12 months) from the original date of purchase. The Belle Group warranty is against defects in design, materials and workmanship.

The following are not covered under the Belle Group warranty:

1. Damage caused by abuse, misuse, dropping or other similar damage caused by or as a result of failure to follow assembly, operation or user maintenance instructions.
2. Alterations, additions or repairs carried out by persons other than Belle Group or their recognised agents.
3. Transportation or shipment costs to and from Belle Group or their recognised agents, for repair or assessment against a warranty claim, on any machine.
4. Materials and/or labour costs to renew, repair or replace components due to fair wear and tear.

The following components are not covered by warranty.

- Drive Belt
- Engine air filter
- Engine spark plug

Belle Group and/or their recognised agents, directors, employees or insurers will not be held liable for consequential or other damages, losses or expenses in connection with or by reason of or the inability to use the machine for any purpose.

Warranty Claims

All warranty claims should firstly be directed to Belle Group, either by telephone, by Fax, by Email, or in writing.
