

RIDE-ON FLOOR STRIPPER BMS-220ADB

A HEAVY-DUTY RIDE-ON FLOOR STRIPPER

The Blastrac BMS-220ADB ride-on stripper is ideally suited for medium and large sized applications with the added benefit of being battery operated for increased versatility. It also provides total freedom of movement. The BMS-220ADB has a 6-8 hour run time thanks to its 12 powerful batteries. The battery charger is IP66 with an easy USB logging system for (dis)charge information.

The BMS-220ADB is very manoeuvrable with a zero turn radius, non-mark tyres and complete hydraulic control. The operator sits on a comfortable seat where they are able to operate the machine with user friendly levers for forward, backward and blade adjustments.

Depending on the type of flooring being removed, you can choose from a wide range of blades or chisels. The BMS-220ADB can easily and quickly remove all kinds of flooring materials e.g. hardwood, parquet, ceramics, linoleum, vinyl, carpet, adhesives, glue, tiles and much more.

	Electric / Up to 40 m/min
	12 x 8 V Batteries Running time up to 6-8 hours
	Ride-On
	77 dB(A)
	Less than 2,5 m/s ²
	Hardwood Parquet Ceramics Linoleum Vinyl Carpet Adhesives Glue Tiles Etc...

BATTERY OPERATED

The BMS-220ADB has an 6-8 hour run time thanks to its 12 powerful batteries. It provides total freedom of movement. The battery charger which is IP66 is a heavy duty charger, shock and vibration resistant according to UL1236_7.

RIDE-ON UNIT

The operator sits on a comfortable seat where he is able to operate the machine with user friendly levers for forward, backward and blade height adjustment functions.

REMOVABLE WEIGHTS

The BMS-220ADB has easy removable weights taking the machine from 1080 kg, down to 960 kg.

NON-MARKING WHEELS

The BMS-220ADB floor stripper is equipped with two big non-marking back wheels for easier control of the machine.

LIFTING EYES & BRACKET FOR FORKLIFT

The BMS-220ADB has four lifting eyes for easy transportation of the machine. The machine can also be lifted by a forklift by using the prepared bracket on the bottom of the machine.

DUAL LIFT

The BMS-220ADB is now equipped, as standard with a Dual Lift System. This allows the operator to adjust both the blade pitch and the blade angle whilst remaining seated in order to have the best performance during the work.
